Explain: The Commercial Core HD was determined Officially Eligible in 2006. This is an official determination that came after the initial survey, which claimed a determination of Field Eligible. CDOT concurs with this determination.

14. **Management Recommendations:** CDOT recommends that the SH 82 Entrance to Aspen project follow mitigation measures as outlined in the ROD during improvements to Commercial Core HD. The improvements will be within the right-of-way, which will not impact the resource. However, when and if the LRT is constructed, SHPO and the Aspen Historic Preservation Commission should review the design drawings for the LRT overhead lines and medians in its vicinity. This is outlined in the ROD as part of the mitigation.
